

Is a Trap

Sag Harbor

November 18, 2011

To the Editor,

The proposed Federal Aviation Administration funding is a trap!

The airport generates a budget surplus and the possible loss of local control to the F.A.A. is real. We don't need the money right now and we do need to keep Washington out of East Hampton. Haven't they screwed up enough things already?

The East Hampton Town Board should postpone the Thursday meeting until the newly elected board members can participate in this important discussion in 2012.

Is there some hidden urgency for a December meeting, perhaps that the votes on the F.A.A. funding have already been tallied by the lame duck town board?

Hmm.
